SELECTED PROJECTS

MyFoodz App

Current

- Designed User Experience using Figma where you save and keep track of your groceries with intuitive design.
- Developed using Flutter framework to run on both Android and IOS phones with Dart as a programming language.
- Connect to Firebase as the backend where authorization and database take place

Portofolio Website

- Developed using React framework with Html, Sass, JavaScript and Bootstrap
- Built with mobile friendliness able to be viewed on different screen size perfectly , Multilingual viewed either in English or polish , and able to switch between light theme and dark theme

WorldTime app

- Build with Flutter framework to run on both Android and IOS phones where a user chooses any city to get its local time with a picture in background to show if its either day or night in that city
- Under the hood it uses wordtimeapi get different time zones of different cities in which a user can pick

PROFESSIONAL EXPERIENCE

BiriFresh Ltd, *Technical Founder and Web Master*

Aug. 2020 - Aug. 2021

- Designed and Developed the website from scratch using WordPress framework with some custom HTML, CSS, PHP, and SQL for the database.
- I did Search Engine Optimization and ranked on Google's first page as the best online grocery delivery in Rwanda.
- Designed the logo and Flyers with Canvas and also I did door to door marketing where we went in neighborhoods explaining our services.

Star Construction and Consultancy Ltd, *Web Master*

- Designed and Developed the website from scratch using WordPress framework with some custom HTML, CSS, PHP, and SQL for the database
- I did Search Engine Optimization to rank as one of the top construction companies in Rwanda
- Customer inquiries through the website increased overall inquiries by 50 % including some well known international organizations.
- Fixed different technical problems at the workplace from troubleshooting to changing profile pictures for employees.

Young Technology Rwanda Ltd, *Technician*

- I warmly welcomed customers who brought their defective devices, checked the device and I estimated time and money it will take to solve
- I would repair it by changing components even sometimes reading the schematics to find a short circuit
- I repaired different devices mostly Laptops, Desktops, TVs, Radios, Loudspeakers and Iron

VOLUNTEERING

Seven United (SUN) organisation, *Vice-president of membership*

- I interviewed and did background checks to each new member to confirm if he/she is a right fit and did some recruiting for new members

- we provided health insurance to over 80 of Rwanda's poorest families in 4 different districts, renovated over 10 houses for widows and orphans and more

LEADERSHIP AND ACTIVITIES

- Vice President of membership for Seven United organization
- Head of Boys dormitory for the entire school
- Class Monitor for 2 years
- Valedictorian of my Highschool
- Played piano since 10 years old
- Won second place in a regional competitive swimming
- Won second place in a regional basketball tournament
